

SMS Marketing by BuyFi

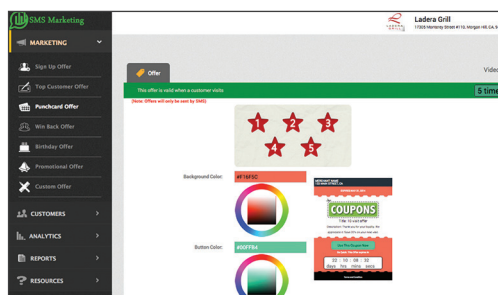

The SMS Marketing solution that makes life simple for a small business and for its customers by automating its rewards programs.

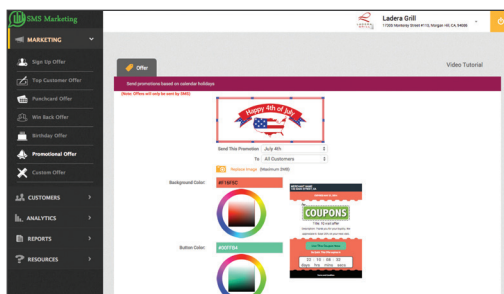

SMS Marketing collects purchase data on your Clover device to identify your best customers and your lost customers – and automatically sends the right offers to the right customers at the right time to grow your sales. Customers simply join with a phone number.

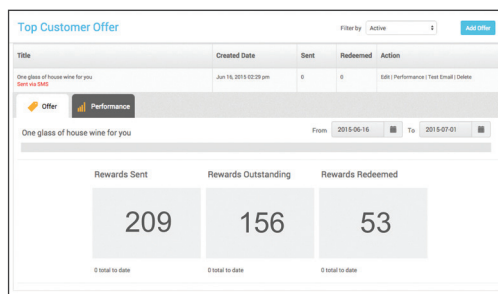

Dashboard shows a snapshot of your marketing performance and loyalty revenues

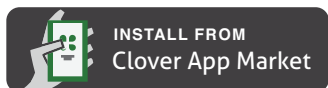

Set up a virtual punch card to reinforce your customers' loyalty to your business without any card swiping or punching

Automatically send holiday promotions directly by SMS to all your customers or only to your favorite customers

Measure the performance of all your marketing programs and their impact on your sales
